

AUGUST 2004

TECHNICAL ISSUES

ECU UPGRADE

I have had a list of competitors from Caterham Midlands who have not had their ECU upgrade yet. This is mandatory in the Academy and must be done before the first race. If you have not had this done yet please contact Midlands on 01455 841616 and ask to speak to Barry Butler. I will send out a list of names via e mail.

TRANSPONDERS

Please ensure you have your transponders for Snetterton on the 22nd August. If you have not ordered one yet and have lost the form please let me know. I am still waiting for transponder numbers from those of you who have already received them. I have asked MST for a list but have received nothing yet.

HELMET CLEARANCE

Please ensure you adhere to this regulation for Snetterton, I am sure that you are all ok now but just another reminder just in case.

SNETTERTON 22ND AUGUST

Your first race is coming up very quickly indeed, and I know that you are all looking forward to it very much, so am I! I am attaching some notes for you regarding this race, as the format is obviously different to the hillclimbs and sprints you have been used to! It would be a good idea to refer back to your notes from the Seminar at Caterham Midlands, 'Your Guide to the Caterham Academy 2004' Section 2, Race Preparation on page 7. There is lots of information in those notes regarding car preparation for racing. If you have any questions please give Nick Potter a ring on 01455 841616.
